

FAOPMA PEST SUMMIT 2020 VIRTUAL CONFERENCE NOVEMBER 18 -19, 2020

SURVIVE COVID-19, PROTECT YOUR FUTURE

SAFEGUARDING THE PEST MANAGEMENT INDUSTRY THROUGH AN UNCERTAIN WORLD

The pest management industry has been hit hard by the COVID-19 pandemic and faces difficult times ahead. If you wish to protect your companies' future and rise above your competitors, join us at the FAOPMA Pest Summit Virtual Conference 2020.

Hear from industry leaders who sailed through the 2007 Global Financial Crisis to become even bigger and stronger. Presentations will focus on the future of COVID-19, its economic impacts to our industry and how to survive these challenges. There will be more than 30 speakers and even virtual booths for opportunities to learn about the latest products with front seat interaction with vendors.

TWO-DAY REGISTRATION FEE: 50USD
REGISTRATION DEADLINE: NOVEMBER 1, 2020

FAOPMA PEST SUMMIT 2020 VIRTUAL CONFERENCE NOVEMBER 18 -19, 2020

Survive COVID-19; Protecting Your Future

Safeguarding the Pest Management Industry through an Uncertain World

Never in our lifetime has humanity faced a greater challenge. By mid-September 2020, the COVID-19 pandemic has resulted in around 30 million cases and, sadly, over 920,000 fatalities. It has been estimated that the actual number of cases could be closer to 200 million worldwide, and deaths by the end of the year will surpass 1.5 million.

Unfortunately, the economic impacts of the pandemic will be *devastating*. The Asian Development Bank has forecast that the global economic costs could be as high as **USD\$8.8 trillion!** Already we have seen unemployment skyrocket to levels not seen since the Great Depression and poverty is rapidly on the rise.

Many business sectors are facing difficult times ahead and numerous establishments are expected to go bankrupt. The pest management industry is not immune to these impacts and companies are going to find survival to the future very challenging.

In an effort to support the industry, the *Federation of Oceanic and Pest Managers Association* ('FAOPMA'), is holding a special event, which is arguably the most important conference ever held to date.

The theme is 'Survive COVID-19; Protecting Your Future', with the aim of safeguarding the pest management industry through an uncertain world.

This will be a virtual conference held over 18 and 19 of November, 2020.

We have assembled many of the greatest speakers in the pest management today. This includes owners of companies who not only survived the Global Financial Crisis but came through bigger and stronger.

Presentations include talks on the future of COVID-19, the economic impacts, the impacts of the pandemic on urban pests, remote management options during the pandemic, remote learning, remote monitoring, marketing in times of COVID-19, business survival, overcoming mental health aspects, customer retention, and more. A special session will examine the impacts of the pandemic upon the pest management industry across the Asia/Pacific/Indian regions.

Exhibition booths will be available to view the latest and greatest products from a variety of companies.

Registration is only USD\$50. Talks will be translated into multiple languages including Chinese, Japanese, Thai, Korean, Indonesian, and Hindi.
